# SPECIAL REQUIREMENTS, UNFORESEEN CHALLENGES, NO PROJECT IS TOO COMPLEX.

## MONTIGO CUSTOM COMMERCIAL

Montigo is proud to offer a true Custom Commercial program where you can bring your ideas to life. Whether it's a simple custom dimension for a traditional style, an elongated or complicated venting run, or a vision for a cutting-edge design, Montigo is your solution provider.

With decades of manufacturing excellence, collaborative relationships with architects and designers, and an instinctive drive to lead the fireplace revolution, Montigo delivers the perfect fireplace to fit your style – if you can dream it, the Montigo engineers can build it.

Every unit passes through extensive pre-shipment testing at our in-house lab and leaves our factory bearing the CSA logo. Certification through CSA is applicable for all of North America.

Innovative design, crafted with care, and unique to each installation. From private luxury homes, to hotels, casinos, health care, restaurants, and other public spaces, a fire feature is the heart of every warm and inviting space.

# COMM

## WHY MONTIGO

When it comes to choosing a custom fireplace, or a manufacturer that you can work with to build one for you, there are a number of factors you'll consider.

Style

Quality

Safety

Experience

Beauty

Value

Customization

Ease of installation

Technology

Montigo's team is well versed in working with our architect and design partners closely to consider each aspect of your project. No detail is too insignificant and you'll find ours to be a highly collaborative process as we work towards creating the ideal fit for your vision and space.

## OUR EXPERIENCE

### Designing a commercial space?

From hotels, restaurants, senior care and other public spaces, a fire feature is the heart of every social gathering. Montigo's COOL-Pack technology ensures safe to touch glass temperatures, an unobstructed view, and continuous flame working in harmony with the building's HVAC system.

### Designing a residential space?

Working with you and your clients, Montigo's team will assist you in creating a custom fireplace perfectly suited to the home's design and aesthetic. We can combine the desire for safe entertaining and integration to home automation systems while also providing your client a visually appealing flush termination on the home's exterior.

### Designing multi-family dwellings?

Montigo has over four decades of experience in assisting design professionals to create both the focal point of shared amenity spaces with our spectacular custom fire elements and provide warmth and ambiance to each individual suite or residence with our vast offering of residential units.

# ERCIAL

## FEATURES

Available for applications indoor, outdoor, or both

Viewing widths from 2ft and up

Lowest glass temperatures in the industry with Montigo's patented COOL-Pack glass technology

Unlimited firebox configurations

Open and glass front unit options

Units can be built split to assemble on-site for challenging access locations

Linear, traditional logset, tornado or other custom burner patterns

Flexible combustion air intake locations

Five Montigo power vent terminations

Optional dampers for flue or intake

Every installation reviewed by our engineering team

CSA Certified in Montigo's on-site lab

# CUSTOM DESIGN, CUSTOM MADE, UNIQUE TO EACH INSTALLATION

## PROFESSIONAL GUIDANCE

Montigo custom fireplaces are available only through authorized dealers. Our team of engineers and specification consultants work with each dealer to confirm key aspects of a unit's form and function prior to installation.

## COOL-PACK TECHNOLOGY

The glass temperatures on a gas fireplace typically range  $\pm 500^{\circ}\text{F}$ . Even momentary contact at these extreme temperatures would result in serious burns to the skin.

Montigo's patented COOL-Pack and Power COOL-Pack glass technologies have been designed to significantly increase safety by maintaining glass temperatures as low as  $115^{\circ}\text{F}$  ( $46^{\circ}\text{C}$ ).

COOL-Pack technology makes it safe to touch the glass, reducing associated liability risks for the property owner.

# OUR GUARANTEE

When a product is truly built to exacting standards of quality and durability, the manufacturer's confidence is reflected in its warranty. Montigo custom fireplaces offer one of the best warranties in the business.

1976  
SINCE

HAND CRAFTED IN  
NORTH AMERICA

## MANUFACTURING FACILITIES

With the unique combination of leading edge design and engineering, combined with perfected manufacturing processes you can count on every Montigo gas fireplace to work as well as it looks.

Montigo operates manufacturing facilities in Canada and the United States. CSA Certified residential fireplaces are manufactured in the both the Canadian and US plants, and custom engineered commercial fireplaces are produced in Canada. With an extensive distribution network, we can ensure efficient delivery of product throughout North America.

## INTAKE LOCATIONS

Montigo develops all units from an installation friendly perspective.

Multiple intake location options mean the fireplace will not dictate, but adapt to your design. Intake location options vary depending on configuration and size of unit.

Six intake locations provide adaptability:

**Bottom, One Side, Both Sides, Front, Rear, Top**

## VENTING

Montigo power vents are designed and manufactured in-house to ensure an optimized fireplace system is created.

Our power venting system allows for virtually unlimited vent lengths, turns, and even downward slopes without affecting the safety or aesthetic of the fireplace. Venting between the fireplace and termination can be run up to 500ft.

Multiple power venting options provide flexibility:

**Vent Free (outdoor only), Roof, Inline, Wall, Flush Wall**

dream it, build it

Have something different in mind? We work closely with designers and architects to engineer, handcraft and install awe-inspiring, bespoke fireplaces for one-of-a-kind spaces. We collaborate with you to help create a sense of space with our fireplaces. If you can dream it, we can build it.

# CONFIGURATIONS &

## outdoor firepits

Commercially constructed from thick gauge stainless-steel, Montigo's C View firepit may be customized to meet even the most unique designs. Offered in linear, square, round, curve, and "L" styles with ribbon or plume flame options and accessories, your firepit is sure to wow.

TRADITIONAL

CAMPFIRE

### traditional burners

If you are a fan of traditional wood burning fires, but not the messy cleanup, then traditional log burners could be just what you're looking for.

Campfire burner is also available in a contemporary version.

# BURNER STYLES

HIGH-LOW

RIBBON

TORNADO

### contemporary burners

With unlimited firebox configurations, multiple burner styles, and almost limitless possibilities for intake and termination, Montigo's C View contemporary burners set the gold standard for commercial fireplace installations. With high quality burner media options, it's easy to create a look to enhance any décor.

### Tornado

Ideal for creating a show stopping entry or centerpiece in any space, the Tornado burner will wow with its vortex of fire.

## custom logo

Personalize your fire element. Any custom company logo or graphic can be offset on the rear interior of the fireplace.

# MONTIGO

## VISUAL OPTIONS & FINISHES

BLACK GLASS

ASH FLUTED

ASH BRICK

RED BRICK

RED HERRINGBONE

### smarhome

Integrate your custom fireplace lighting with home automation. Your existing or new home system utilizing Zigbee 3.0 protocol may be integrated by including Montigo's optional smart home driver.

### operational remotes & timers

On/off control at your fingertips or pre-set timing with our easy to use remote controls and timers.

## open concept

The majority of our fireplaces have an open concept option that negates the need for a glass door. This can be leveraged to create a truly convincing replica of a vintage fireplace, or to simply create a barrier-less view between you and the fire.

# REMOTES

SATIN BLACK

## downlighting

Create a stunning display even when the fireplace is off with halogen downlighting. Available with different intensity levels, all within a heat resistant system.

## uplighting<sup>†</sup>

Our LED system lets you enhance your fireplace with your choice of color or a true white channel. Optional independent single or optional multi row colors.

## lighting remotes

From left to right:  
Handheld / Wall Remote (Standard)  
Rotary Wall Mounted  
Touch Wall Mounted  
Desktop Rotary

<sup>†</sup> Uplighting not available in BF units

## EXPAND YOUR IMAGINATION

Think of the Tornado and our open concept fireplaces as just the framework for your custom fireplace design. The tornado burner system can be configured into virtually any of our fireplace configurations, including see-through, corner, STIO, and even a triangle.

Open concept is open to wherever your creative mind takes you. The endless configurations, media options, and unique finishing choices, makes it an extremely versatile fireplace style.

# TORNADO

## NOW THATS UNIQUE

The Tornado, our most exciting new product uses a unique air vortex torch style burner to create a stunning three foot spiraling column of flame.

Ideal for creating a show stopping centerpiece in any room, the Tornado commercial fireplace system is a highly customizable unit that can be placed almost anywhere.

A TRULY  
POWERFUL  
VERTICAL  
FIRE DISPLAY

**OPEN CONCEPT, NOT JUST FOR FLOOR PLANS...**

In 1976 we created the first sandpan fireplace burner which was designed to fit into an open wood burning hearth. That desire for an open fireplace is still with us, as we continue to develop new and exciting open concept fireplaces for our commercial lineup. Open units can feature any opening height up to 30".

# OPEN CONCEPT

**Advanced**

Using our air curtain technology combined with our custom power vents, we can develop a blazing fire that will only have a minimal effect on the ambient room temperature.

**Additions**

Remote controls, lighting systems, safety screens, we can spec out a wide scope of decorative or functional features to make your open fireplace dreams a reality.

**CONTEMPORARY OPEN**

Create a modern European style seamless transition from wall to fireplace, or simply create a barrier-free view between you and the fire.

**TRADITIONAL OPEN**

Create a truly convincing replica of a vintage fireplace with our new Mountain Timber or Birch logsets. Just try and resist the urge to put another log on the fire!

# The essential element...fire creates energy

For over 40 years Montigo has been building linear and traditional fireplaces for designers of unique and glamorous public spaces.

The goal of the Montigo custom fireplace team is to work with architects, designers and their clients to incorporate an exclusive element of flame that dances and enhances your favorite space. With design parameters that have virtually no boundaries – if you can dream it, we can build it.
